Aquila Tax-Free Fund of Colorado

“It has been Quite the Year”

Serving Colorado investors since 1987

May, 2021

Dear Fellow Shareholder:

More than likely, you became a fellow shareholder based on our Fund’s investment objective, which is to provide as high a level of double tax-free income as is consistent with preservation of capital.

The COVID-19 pandemic brought a lot of uncertainty to the U.S. beginning in March 2020. Given that uncertainty oftentimes results in market volatility, you may have wondered how the Aquila Group of Funds handles changes in the market and potential volatility. And, are there any regulatory safeguards related to investments in the Fund?

Let’s begin with your Fund’s investment strategy. By design, the investment strategy we formulated with our first municipal bond fund back in 1985 was designed with potential market volatility in mind. This strategy includes:

High-Quality Investments – When selecting securities we have always focused on the source and reliability of revenue and income streams, the management teams and the financial decisions they make, and the discipline those teams apply to executing their strategic and budget plans. You may be aware that organizations such as Moody’s, S&P, and Fitch register with the U.S. Securities and Exchange Commission (“SEC”) as Nationally Recognized Statistical Rating Organizations (“NRSROs”), subject to the SEC’s oversight and examination authority. Each of the NRSROs uses a wide variety of financial analysis and modeling techniques to evaluate municipal issuers’ financial data and collateral and consider such other factors they believe to be pertinent. Ultimately, the NRSRO ratings reflect their professional assessment of an issuer’s ability to pay interest as well as a bond’s face value at maturity. This review process continues through routine ongoing analysis and evaluation. And, in the interim, any major events or news announcements that affect an issuer’s debt may cause rating agencies to reassess, and possibly revise their opinions. Similar reviews may also be conducted across an entire sector, such as hospitals or schools. Our goal with the Aquila Group of Funds is, as feasible, to conduct our own review and ongoing monitoring of securities in which your Fund invests.

Intermediate maturities – Our goal with maintaining an average intermediate maturity is to limit volatility with any change in interest rates.

Diversification – This part of our strategy is quite simple – “don’t put all of your eggs in one basket.” To the maximum extent possible, we have sought to invest, on behalf of our shareholders, in as many types of projects as possible throughout the state. This limits exposure in any particular situation (and, it enhances the quality of life throughout the state by financing worthy municipal projects).

Local Expertise – In line with our guiding principles, we have always believed that local makes a real difference. With portfolio investment professionals that generally reside in the states in which we invest, we don't have to read about issues affecting the state, because we have our local eyes and ears. Our portfolio management teams are attuned to the nuances of the local municipal markets, the economy and policy decisions.

Now, let's talk about regulatory safeguards related to investments in the Fund – of course, please bear in mind that past performance is no guarantee of future results. Mutual funds are highly regulated in large part because they are one of the primary savings and investment vehicles for U.S. investors. The Investment Company Act of 1940 (the "1940 Act") -- an act of Congress that regulates mutual funds -- is enforced and regulated by the SEC, whose mission includes protecting investors. Two important areas of focus by the SEC and your Fund's management are as follows:

Portfolio Valuation – Your Fund's portfolio securities are valued based upon information provided by a nationally prominent independent pricing service. As an added precaution, we periodically assess the reasonableness of these prices through other pricing services. If a market quotation or a valuation from the pricing service is not readily available for a particular security, we seek to value the security in good faith under procedures established by and under the general supervision of your Fund's Board of Trustees.

Liquidity Risk Management – The SEC recently adopted Rule 22e-4 with the goal to reduce the risk that funds will be unable to meet shareholder requests to redeem shares without significantly reducing the value of other remaining shareholders' investments in the fund. Your shareholder report now includes a Statement Regarding Liquidity Risk Management Program.

As always, thank you for your continued confidence in the Fund. We remain committed to our disciplined strategy as we manage your Fund, keeping in mind the trust you have placed in us.

Sincerely,

A handwritten signature in black ink that reads "Diana P. Herrmann". The signature is fluid and cursive, with a long, sweeping underline.

Diana P. Herrmann, Vice Chair and President

Any information in this Shareholder Letter regarding market or economic trends or the factors influencing the Fund's historical or future performance are statements of opinion as of the date of this report. NOT A PART OF THE ANNUAL REPORT

Aquila Tax-Free Fund of Colorado

ANNUAL REPORT Management Discussion

Serving Colorado investors since 1987

U.S. Economy

Last spring, the onset of the pandemic led the U.S. economy into recession following an unprecedented, almost overnight, shutdown. Unlike previous recessions, asset markets continued to gain value and corporate incomes have largely held steady. The recovery will be driven by states continuing to reopen as more people become vaccinated, and money enters the economy through the third federal stimulus, the \$1.9 trillion American Rescue Plan, and the potential \$2 trillion American Jobs Plan infrastructure proposal. Consumer spending increased considerably faster in the first quarter of 2021 than in the fourth quarter of last year due to federal stimulus payments. U.S. households currently have a high rate of savings and are likely to spend on travel and leisure due to pent-up demand. Gross Domestic Product (“GDP”) is expected to grow at a faster pace in the first quarter of 2021 than the 4.3% rate in the fourth quarter of last year. Almost 20% of the U.S. population was fully vaccinated at the end of March, which will likely fuel economic growth for the remainder of 2021. Additional economic shutdowns due to a resurgence in infections could, however, be detrimental to growth.

U.S. stocks continued to rise and ended March at all-time highs from the record high at the end of 2020. Yields are rising amidst increased inflation fears, but confidence in stronger growth is also higher. Markets are anticipating strong consumer spending as vaccination rates increase and lockdowns are loosened. This can already be seen in travel bookings, airport embarkations, Uber and Lyft trips as well as restaurant reservations. People are ready to get out of their homes and socialize. This bodes well for the reopening trade, but with demand increasing at such a rapid pace, and supply chains under enormous pressure to recover from the pandemic shutdown, it does call into question the impact of increasing government deficit spending, the Federal Reserve’s adherence to very low interest rates and a market that is thinking about real inflation for the first time in over a decade.

Municipal Market

Changes in the tax code and recent municipal performance have continued to foster investor demand for municipal bonds. The desirability of the asset class has resulted in tight credit spreads, low relative ratios and low absolute yields. While the Biden Administration’s spending plans are expected to boost economic growth and bond yields, we do not anticipate this will reverse the course of aggressive demand. Furthermore, the Biden Administration’s tax agenda could further increase demand for tax-exempt municipal bonds.

Since January, 10-year Treasury market yields have soared over 80 basis points (a basis point is one hundredth of one percent), hitting a peak of 1.77% on March 30th, fueled by speculation about the inflationary impact of government spending combined with monetary stimulus. Municipal yields have followed U.S. Treasury

MANAGEMENT DISCUSSION (continued)

securities, although at a slower pace due to strong investor demand for municipal bonds. 10-year municipal bonds as a percentage of 10-year U.S. Treasuries have risen off a low of 55% and are currently yielding 61% of U.S. Treasuries, which is 33% below the 5-year average of 94%.

Municipal credit spreads (the difference in yield between Baa-rated bonds and Aaa-rated bonds) on 10-year bonds have tightened further over the quarter ended March 31st, while spreads on A-rated bonds remained unchanged. This is an indication of increased investor confidence in municipal credit at the lower end of the investment-grade spectrum, following a period of widening during the pandemic. Credits in the A-range were less affected since they were already priced to tight credit spreads and they were not as affected by credit fears created by the pandemic. Much of the increased confidence is due to the Biden Administration's proposed infrastructure spending plan and to the pandemic's limited impact on municipal credit ratings. The American Jobs Plan proposes an unprecedented \$2.3 trillion in proposed infrastructure spending with schools, water, electric, health care, public transit and airports all benefitting from the proposal.

Colorado Bond Market and Economy

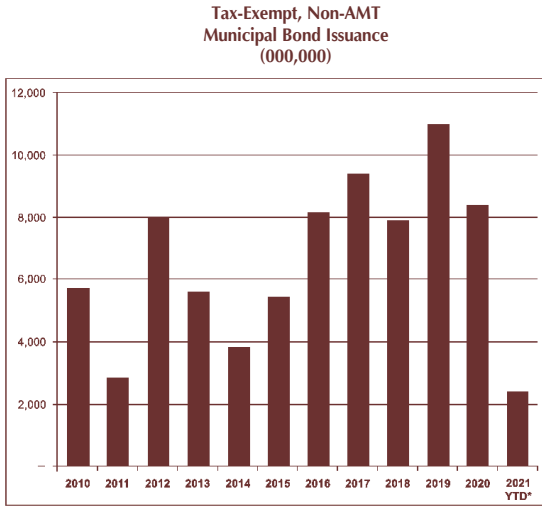

Colorado's economy expanded through February. Revenue collections have been higher than expected, and a third round of federal stimulus, combined with increased vaccine distributions, lead to an upgrade of the economic outlook for 2021. Retail sales have rebounded to record highs as the pandemic has shifted consumer spending from services to goods and online purchases have significantly increased. The additional federal stimulus package is expected to support consumer activity over the next year. The Federal Reserve Bank of Kansas City index of business activity climbed rapidly into expansionary territory at the end of 2020, continuing into February 2021, after contracting to levels below those experienced during the Great Recession. According to the Colorado Secretary of State's Office, over 38,000 businesses dissolved during 2020, an increase of 9.6% from 2019. The U.S. Bureau of Labor Statistics reports that the State's unemployment rate has stayed constant for two months at 6.6% in February. As of January, Colorado had gained 57% of the jobs lost during the pandemic.

According to the Colorado Legislative Council's ("CLC") March 2021 economic forecast, Colorado's economy is anticipated to decrease by \$150 million in 2021, due to the impacts the pandemic is expected to have on individual and corporate income tax revenue, while sales tax revenue is expected to slightly increase. Colorado's 2020 general fund revenues totaled \$12.9 billion, up 2.4% from fiscal year 2019. General fund revenues are expected to fall 1.1% in fiscal year 2021 and then rebound 8.5% in fiscal year 2022 to \$13.8 billion. Household finances are strong, as wages and salaries continue to increase and exceeded pre-pandemic levels in January. Increased savings, two additional rounds of federal stimulus, and record low household debt levels are expected to increase consumer spending in Colorado. The State received \$2.2 billion in federal aid via the Coronavirus Aid, Relief, and Economic Security Act and is expected to receive \$4.0 billion from the \$1.9 trillion American Rescue Plan passed by Congress.

Overall, 2020 was another strong year for municipal bond issuance in Colorado. It was the third-highest year of tax-exempt issuance, and the third year above \$8.0 billion, even with the elimination of tax-exempt advance refundings in 2018. Almost 21% of

MANAGEMENT DISCUSSION (continued)

issuance occurred from metropolitan districts, a riskier sector with historically lower credit quality than school districts or municipalities. The State accounted for almost 25% of issuance, and the City and County of Denver accounted for approximately 10% of 2020 tax-exempt issuance. Demand continued to be strong as new municipal issues were several times oversubscribed, resulting in repricing to lower yields. Issuance over the year was highlighted by several transactions, in which the Fund participated, including \$240 million Jefferson County School District General Obligation Bonds, \$201 million City of Colorado Springs Utilities System Revenue Bonds and \$167 million E-470 Public Highway Authority Senior Revenue Bonds.

Source: Bloomberg and Kirkpatrick Pettis Capital Management

Colorado tax-exempt, non-AMT, issuance in the first quarter of 2021 increased approximately 65% to \$2.5 billion compared to \$1.5 billion for the first quarter of 2020. We expect that the majority of issuance in 2021 will be in the form of new money general obligation bonds issued by school districts, especially over the first half of the year. This issuance will be largely driven by the November 2020 general election, during which voters approved \$1.6 billion in general obligation bonds across the State, compared to the November 2019 election, which saw \$1.0 billion of issuance approved. Colorado

voters approved Amendment B, which repealed the Gallagher Amendment by locking the residential property tax assessment rate at 7.15% for residential properties, and Proposition 116, a measure reducing the state income tax rate from 4.63% to 4.55%. The majority of the bonds approved were for school districts making capital improvements to existing facilities and construction of new facilities.

At the end of March 2021, over 44% of the Fund's bond holdings are allocated to general obligation bonds that rely on property taxes for repayment. We do not see any material immediate credit risks for these credits given the stability of the property tax-funded revenue model and a lack of exposure to significant coronavirus-related expenditure increases for most of these bonds. Property tax collections in Colorado have been robust over the past year and property values have continued to appreciate. There are certain credits and sectors where we expect to see limited distress, including higher education, health care, transportation and bonds backed by sales tax revenue.

Fund Performance, Outlook and Strategy

The table in the Performance Report section of this Annual Report provides Aquila Tax-Free Fund of Colorado's (the "Fund") total return performance information for the one-year, five-year and ten-year and since-inception periods ended March 31,

MANAGEMENT DISCUSSION (continued)

2021 compared to the performance of the Bloomberg Barclays Quality Intermediate Municipal Bond Index (the “Bloomberg Barclays Intermediate Index”), the Fund’s benchmark.

The total return for the Class A share of the Fund at net asset value (“NAV”) was 2.48% for the fiscal year ended March 31, 2021, compared to 4.47% for the Bloomberg Barclays Intermediate Index. The portfolio was positioned to withstand the market response to the first three months of the pandemic. The shorter duration, higher credit quality, overweight position in pre-refunded securities, and underweighted positions in health care and transportation sectors all contributed to favorable Fund performance versus the Bloomberg Barclays Intermediate Index. During the remaining nine months of the period, where we experienced a sharp reversal of market conditions, these same portfolio characteristics became a headwind to the Fund’s total return performance versus the Bloomberg Barclays Intermediate Index. As the market recovered and demand for municipal securities outweighed supply, we saw a return to the “risk-on” behavior in the municipal market where investors focused on lower credit quality, riskier sectors and longer maturity securities to reach for yield. While our overweight exposure to pre-refunded securities detracted from performance compared to the Bloomberg Barclays Intermediate Index, this sector also contributed significantly to the yield, credit strength, and liquidity of the Fund’s portfolio.

We have been reinvesting maturing bond proceeds and new money in the 10 to 15-year maturity range as the municipal yield curve remains positively sloped and the Fund’s portfolio has balanced exposure to maturities up to that range. Maturity and duration may slightly lengthen. Furthermore, given the uncertainty of our current economic and health conditions, pre-refunded holdings could, once again, provide stability. We also continue to emphasize high-grade credits and review any special situations that may offer the opportunity to add additional yield through our credit expertise and proprietary research.

The Fund continues to hold, approximately 92% of its investment portfolio in AA or higher credit quality bonds, due to currently narrow credit spreads in the municipal market. Considering the current status of economic conditions, if credit spreads widen, we would consider strategically adding lower investment-grade holdings to provide greater value. Similarly, should the yield curve steepen, we would consider slightly lengthening duration to take advantage of higher interest rates.

Mutual fund investing involves risk and loss of principal is possible.

The market prices of the Fund’s securities may rise or decline in value due to general market conditions, such as real or perceived adverse economic or political conditions, inflation, changes in interest rates, lack of liquidity in the bond markets or adverse investor sentiment. When market prices fall, the value of your investment may go down. In the past several years, financial markets have experienced increased volatility, depressed valuations, decreased liquidity and heightened uncertainty. These conditions may continue, recur, worsen or spread.

The respiratory illness COVID-19 caused by a novel coronavirus has resulted in a global pandemic and major disruption to economies and markets around the world, including the United States. Governments and central banks, including the Federal Reserve in the U.S., have taken extraordinary and unprecedented actions to support local and global economies and the financial markets. The impact of these measures, and whether they will be effective to mitigate the economic and market disruption, will not be known for some time.

MANAGEMENT DISCUSSION (continued)

Some interest rates are very low. The value of your investment may go down if and when interest rates rise. A rise in interest rates tends to have a greater impact on the prices of longer term securities. A general rise in interest rates may cause investors to move out of fixed income securities and could also result in increased redemptions from the Fund.

Investments in the Fund are subject to possible loss due to the financial failure of the issuers of underlying securities and their inability to meet their debt obligations.

The value of municipal securities can be adversely affected by changes in the financial condition of one or more individual municipal issuers or insurers of municipal issuers, regulatory developments, legislative actions, and by uncertainties and public perceptions concerning these and other factors. The Fund may be affected significantly by adverse economic, political or other events affecting state and other municipal issuers in which it invests, and may be more volatile than a more geographically diverse fund.

A portion of income may be subject to local, state, Federal and/or alternative minimum tax. Capital gains, if any, are subject to capital gains tax.

These risks may result in share price volatility.

Any information in this Annual Report regarding market or economic trends or the factors influencing the Fund's historical or future performance are statements of opinion as of the date of this report. These statements should not be relied upon for any other purpose. Past performance is no guarantee of future results, and there is no guarantee that any market forecasts discussed will be realized.

PERFORMANCE REPORT

The following graph illustrates the value of \$10,000 invested in the Class Y shares of Aquila Tax-Free Fund of Colorado (the "Fund") for the 10-year period ended March 31, 2021 as compared with the Bloomberg Barclays Quality Intermediate Municipal Bond Index (the "Bloomberg Barclays Intermediate Index") and the Consumer Price Index (a cost of living index). The performance of each of the other classes is not shown in the graph but is included in the table below. It should be noted that the Bloomberg Barclays Intermediate Index does not include any operating expenses nor sales charges, and being nationally oriented, does not reflect state-specific bond market performance.

Average Annual Total Return for periods ended March 31, 2021

<u>Class and Inception Date</u>	<u>1 Year</u>	<u>5 Years</u>	<u>10 Years</u>	<u>Since Inception</u>
Class A since 5/21/87				
With Maximum Sales Charge	(1.62)%	1.06%	2.82%	4.63%
Without Sales Charge	2.48	1.88	3.24	4.76
Class C since 4/30/96				
With CDSC*	0.51	0.94	2.27	2.89
Without CDSC	1.51	0.94	2.27	2.89
Class Y since 4/30/96				
No Sales Charge	2.53	1.92	3.28	4.00
Bloomberg Barclays Intermediate Index	4.47	2.71	3.39	5.06 (Class A) 4.35 (Class C & Y)

Total return figures shown for the Fund reflect any change in price and assume all distributions, including capital gains, within the period were invested in additional shares. The returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund Shares. The rates of return will vary and the principal value of an investment will fluctuate with market conditions. Shares, if redeemed, may be worth more or less than their original cost. A portion of each class's income may be subject to Federal and state income taxes. Past performance is not predictive of future investment results.

* CDSC = 1% contingent deferred sales charge imposed on redemptions made within the first 12 months after purchase.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees of Aquila Municipal Trust and the Shareholders of Aquila Tax-Free Fund of Colorado:

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Aquila Tax-Free Fund of Colorado (the "Fund"), including the schedule of investments, as of March 31, 2021, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of March 31, 2021, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and its financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as the auditor for the Trust since 2005.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of the Fund's internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of March 31, 2021 by correspondence with the custodian and brokers. We believe that our audits provide a reasonable basis for our opinion.

AQUILA TAX-FREE FUND OF COLORADO
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2021

1. Organization

Aquila Tax-Free Fund of Colorado (the “Fund”) is one of six series of Aquila Municipal Trust, a Massachusetts business trust registered under the Investment Company Act of 1940 (the “1940 Act”) as a non-diversified, open-end management investment company. The Fund, which commenced operations on October 12, 2013, is the successor to Tax-Free Fund of Colorado. Tax-Free Fund of Colorado transferred all of its assets and liabilities in exchange for shares of the Fund on October 11, 2013 pursuant to an agreement and plan of reorganization (the “reorganization”). The reorganization was approved by shareholders of Tax-Free Fund of Colorado on September 17, 2013. The reorganization was accomplished by exchanging the assets and liabilities of the predecessor fund for shares of the Fund. Shareowners holding shares of Tax-Free Fund of Colorado received corresponding shares of the Fund in a one-to-one exchange ratio in the reorganization. Accordingly, the reorganization, which was a tax-free exchange, had no effect on the Fund’s operations. The Fund is authorized to issue an unlimited number of shares. Class A Shares are sold at net asset value plus a sales charge of varying size (depending upon a variety of factors) paid at the time of purchase and bear a distribution fee. Class C Shares are sold at net asset value with no sales charge payable at the time of purchase but with a level charge for service and distribution fees for six years thereafter. Class C Shares automatically convert to Class A Shares after six years. Class Y Shares are sold only through authorized financial institutions acting for investors in a fiduciary, advisory, agency, custodial or similar capacity, and are not offered directly to retail customers. Class Y Shares are sold at net asset value with no sales charge, no redemption fee, no contingent deferred sales charge (“CDSC”) and no distribution fee. As of the date of this report, there were no Class F Shares outstanding. All classes of shares represent interests in the same portfolio of investments and are identical as to rights and privileges but differ with respect to the effect of sales charges, the distribution and/or service fees borne by each class, expenses specific to each class, voting rights on matters affecting a single class and the exchange privileges of each class.

2. Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America for investment companies.

- a) *Portfolio valuation:* Municipal securities are valued each business day based upon information provided by a nationally prominent independent pricing service and periodically verified through other pricing services. In the case of securities for which market quotations are readily available, securities are valued by the pricing service at the mean of bid and ask quotations. If a market quotation or a valuation from the pricing service is not readily available, the security is valued at fair value determined in good faith under procedures established by and under the general supervision of the Board of Trustees.
- b) *Fair value measurements:* The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund’s own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund’s investments and are summarized in the following fair value hierarchy:

AQUILA TAX-FREE FUND OF COLORADO
NOTES TO FINANCIAL STATEMENTS (continued)
MARCH 31, 2021

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, based on the best information available.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the valuation inputs, representing 100% of the Fund’s investments, used to value the Fund’s net assets as of March 31, 2021:

<u>Valuation Inputs*</u>	<u>Investments in Securities</u>
Level 1 – Quoted Prices	\$ 6,517,640
Level 2 – Other Significant Observable Inputs — Municipal Bonds*	273,399,245
Level 3 – Significant Unobservable Inputs	<u>—</u>
Total	<u>\$ 279,916,885</u>

* See schedule of investments for a detailed listing of securities.

- c) *Subsequent events*: In preparing these financial statements, the Fund has evaluated events and transactions for potential recognition or disclosure through the date these financial statements were issued.
- d) *Securities transactions and related investment income*: Securities transactions are recorded on the trade date. Realized gains and losses from securities transactions are reported on the identified cost basis. Interest income is recorded daily on the accrual basis and is adjusted for amortization of premium and accretion of original issue and market discount.
- e) *Federal income taxes*: It is the policy of the Fund to continue to qualify as a regulated investment company by complying with the provisions of the Internal Revenue Code applicable to certain investment companies. The Fund intends to make distributions of income and securities profits sufficient to relieve it from all, or substantially all, Federal income and excise taxes.

Management has reviewed the tax positions for each of the open tax years (2018 – 2020) or expected to be taken in the Fund’s 2021 tax returns and has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements.

AQUILA TAX-FREE FUND OF COLORADO
NOTES TO FINANCIAL STATEMENTS (continued)
MARCH 31, 2021

- f) *Multiple Class Allocations:* All income, expenses (other than class-specific expenses), and realized and unrealized gains or losses are allocated daily to each class of shares based on the relative net assets of each class. Class-specific expenses, which include distribution and service fees and any other items that are specifically attributed to a particular class, are also charged directly to such class on a daily basis.
- g) *Use of estimates:* The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.
- h) *Reclassification of capital accounts:* Accounting principles generally accepted in the United States of America require that certain components of net assets relating to permanent differences be reclassified between financial and tax reporting. These reclassifications had no effect on net assets or net asset value per share. For the year ended March 31, 2021, there were no items identified that have been reclassified among components of net assets.
- i) The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standard Codification Topic 946 “Financial Services-Investment Companies”.

3. Fees and Related Party Transactions

a) Management Arrangements:

Aquila Investment Management LLC (the “Manager”), a wholly-owned subsidiary of Aquila Management Corporation, the Fund’s founder and sponsor, serves as the Manager for the Fund under an Advisory and Administration Agreement with the Fund. The portfolio management of the Fund has been delegated to a Sub-Adviser as described below. Under the Advisory and Administration Agreement, the Manager provides all administrative services to the Fund, other than those relating to the day-to-day portfolio management. The Manager’s services include providing the office of the Fund and all related services as well as overseeing the activities of the Sub-Adviser and managing relationships with all the various support organizations to the Fund such as the shareholder servicing agent, custodian, legal counsel, auditors and distributor and additionally maintaining the Fund’s accounting books and records. For its services, the Manager is entitled to receive a fee which is payable monthly and computed as of the close of business each day at the annual rate of 0.50% of net assets of the Fund.

The Manager has contractually agreed to waive fees through September 30, 2021 to the extent necessary in order to pass savings through to the shareholders with respect to the Sub-Adviser’s contractual fee waiver such that its fees are as follows: the annual rate shall be equivalent to 0.48% of net assets of the Fund up to \$400 million; 0.46% of the Fund’s net assets above that amount to \$1 billion and 0.44% of the Fund’s net assets above \$1 billion. This contractual undertaking is currently in effect until September 30, 2021. The Manager

AQUILA TAX-FREE FUND OF COLORADO
NOTES TO FINANCIAL STATEMENTS (continued)
MARCH 31, 2021

may not terminate the arrangement without the approval of the Board of Trustees. For the year ended March 31, 2021, the Fund incurred management fees of \$1,393,687 of which \$55,755 was waived under the contractual fee waiver.

Kirkpatrick Pettis Capital Management (the "Sub-Adviser") serves as the Investment Sub-Adviser for the Fund under a Sub-Advisory Agreement between the Manager and the Sub-Adviser. Under this agreement, the Sub-Adviser continuously provides, subject to oversight of the Manager and the Board of Trustees of the Fund, the investment program of the Fund and the composition of its portfolio, arranges for the purchases and sales of portfolio securities, and provides for daily pricing of the Fund's portfolio. For its services, the Sub-Adviser is entitled to receive a fee from the Manager which is payable monthly and computed as of the close of business each day at the annual rate of 0.20%. The Sub-Adviser has contractually agreed to waive its fee through September 30, 2021 such that its annual rate of fees is at 0.16% of net assets of the Fund up to \$400 million; 0.14% of net assets above \$400 million up to \$1 billion; and 0.12% of net assets above \$1 billion.

Under a Compliance Agreement with the Manager, the Manager is compensated by the Fund for compliance related services provided to enable the Fund to comply with Rule 38a-1 of the Investment Company Act of 1940, as amended (the "1940 Act").

Specific details as to the nature and extent of the services provided by the Manager and the Sub-Adviser are more fully defined in the Fund's Prospectus and Statement of Additional Information.

b) *Distribution and Service Fees:*

The Fund has adopted a Distribution Plan (the "Plan") pursuant to Rule 12b-1 (the "Rule") under the 1940 Act. Under one part of the Plan, with respect to Class A Shares, the Fund is authorized to make distribution fee payments to broker-dealers or others ("Qualified Recipients") selected by Aquila Distributors LLC (the "Distributor"), including, but not limited to, any principal underwriter of the Fund, with which the Distributor has entered into written agreements contemplated by the Rule and which have rendered assistance in the distribution and/or retention of the Fund's shares or servicing of shareholder accounts. While the Fund's Distribution Plan applicable to Class A Shares permits the Fund to make distribution fee payments at the rate of up to 0.15% on the entire net assets represented by Class A Shares, the Fund currently makes payment of this distribution fee at the annual rate of 0.075% (For the period April 1, 2020 to August 31, 2020 the annual rate was 0.05%). For the year ended March 31, 2021, distribution fees on Class A Shares amounted to \$99,874 of which the Distributor retained \$6,491.

Under another part of the Plan, the Fund is authorized to make payments with respect to Class C Shares to Qualified Recipients which have rendered assistance in the distribution and/or retention of the Fund's Class C shares or servicing of shareholder accounts. These payments are made at the annual rate of 0.75% of the Fund's average net assets represented by Class C Shares and for the year ended March 31, 2021, amounted to \$58,354. In addition, under a Shareholder Services Plan, the Fund is authorized to make service fee payments with respect to Class C Shares to Qualified Recipients for providing personal services and/or maintenance of shareholder accounts. These payments are

AQUILA TAX-FREE FUND OF COLORADO
NOTES TO FINANCIAL STATEMENTS (continued)
MARCH 31, 2021

made at the annual rate of 0.25% of the Fund's average net assets represented by Class C Shares and for the year ended March 31, 2021, amounted to \$19,452. The total of these payments with respect to Class C Shares amounted to \$77,806 of which the Distributor retained \$18,444.

Specific details about the Plans are more fully defined in the Fund's Prospectus and Statement of Additional Information.

Under a Distribution Agreement, the Distributor serves as the exclusive distributor of the Fund's shares. Through agreements between the Distributor and various brokerage and advisory firms ("financial intermediaries"), the Fund's shares are sold primarily through the facilities of these financial intermediaries having offices within Colorado, with the bulk of any sales commissions inuring to such financial intermediaries. For the year ended March 31, 2021, total commissions on sales of Class A Shares amounted to \$44,629 of which the Distributor received \$12,591.

c) Transfer and shareholder servicing fees:

The Fund occasionally compensates financial intermediaries in connection with the sub-transfer agency related services provided by such entities in connection with their respective Fund shareholders so long as the fees are deemed by the Board of Trustees to be reasonable in relation to (i) the value of the services and the benefits received by the Fund and certain shareholders; and (ii) the payments that the Fund would make to another entity to perform similar ongoing services to existing shareholders.

4. Purchases and Sales of Securities

During the year ended March 31, 2021, purchases of securities and proceeds from the sales of securities aggregated \$38,171,892 and \$19,050,000, respectively.

At March 31, 2021, the aggregate tax cost for all securities was \$267,060,773. At March 31, 2021, the aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost amounted to \$13,266,700 and aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value amounted to \$410,588 for a net unrealized appreciation of \$12,856,112.

5. Portfolio Orientation

Since the Fund invests principally and may invest entirely in double tax-free municipal obligations of issuers within Colorado, it is subject to possible risks associated with economic, political, or legal developments or industrial or regional matters specifically affecting Colorado and whatever effects these may have upon Colorado issuers' ability to meet their obligations. At March 31, 2021, the Fund had all of its long-term portfolio holdings invested in the securities of Colorado issuers.

Total transactions in Fund shares	<u>1,285,776</u>	<u>\$ 13,863,333</u>	<u>(347,012)</u>	<u>\$ (3,557,386)</u>

7. Trustees' Fees and Expenses

At March 31, 2021, there were 9 Trustees, one of whom is affiliated with the Manager and is not paid any fees. The total amount of Trustees' service fees (for carrying out their responsibilities) and attendance fees paid during the year ended March 31, 2021 was \$58,134. Attendance fees are paid to those in attendance at regularly scheduled quarterly Board Meetings and meetings of the independent Trustees held prior to each quarterly Board Meeting, as well as additional meetings (such as Audit, Nominating, Shareholder and special meetings). Trustees are reimbursed for their expenses such as travel, accommodations and meals incurred in connection with attendance at Board Meetings and the Annual Meeting of Shareholders. For the year ended March 31, 2021, due to the COVID-19 pandemic, such meeting-related expenses amounted to \$0.

AQUILA TAX-FREE FUND OF COLORADO
NOTES TO FINANCIAL STATEMENTS (continued)
MARCH 31, 2021

8. Securities Traded on a When-Issued Basis

The Fund may purchase or sell securities on a when-issued basis. When-issued transactions arise when securities are purchased or sold by the Fund with payment and delivery taking place in the future in order to secure what is considered to be an advantageous price and yield to the Fund at the time of entering into the transaction. Beginning on the date the Fund enters into a when-issued transaction, cash or other liquid securities are segregated in an amount equal to or greater than the value of the when-issued transaction. These transactions are subject to market fluctuations and their current value is determined in the same manner as for other securities.

9. Income Tax Information and Distributions

The Fund declares dividends daily from net investment income and makes payments monthly. Net realized capital gains, if any, are distributed annually and are taxable. Dividends and capital gains distributions are paid in additional shares at the net asset value per share or in cash, at the shareholder's option.

The Fund intends to maintain, to the maximum extent possible, the tax-exempt status of interest payments received from portfolio municipal securities in order to allow dividends paid to shareholders from net investment income to be exempt from regular Federal and State of Colorado income taxes. Due to the distribution levels maintained by the Fund and the differences between financial statement reporting and Federal income tax reporting requirements, distributions made by the Fund may not be the same as the Fund's net investment income, and/or net realized securities gains. As a result of the passage of the Regulated Investment Company Act of 2010 (the "Act"), losses incurred in this fiscal year and beyond retain their character as short-term or long-term, have no expiration date and are utilized before capital losses incurred prior to the enactment of the Act. At March 31, 2021, the Fund had capital loss carry forwards of \$1,925,753 of which \$1,758,365 retains its character of short-term and \$167,388 retains its character of long-term; both have no expiration. This carryover is available to offset future net realized gains on securities transactions to the extent provided for in the Internal Revenue Code.

The tax character of distributions was as follows:

	Year Ended March 31, 2021	Year Ended March 31, 2020
Net tax-exempt income.....	\$ 4,680,747	\$ 5,368,189
Ordinary Income.....	1,367	78,094
	<u>\$ 4,682,114</u>	<u>\$ 5,446,283</u>

As of March 31, 2021, the components of distributable earnings on a tax basis were:

Undistributed tax-exempt income.....	\$ 88,545
Unrealized appreciation.....	12,856,112
Accumulated net realized loss.....	(1,925,753)
Other temporary differences	(75,881)
	<u>\$ 10,943,023</u>

AQUILA TAX-FREE FUND OF COLORADO
NOTES TO FINANCIAL STATEMENTS (continued)
MARCH 31, 2021

The difference between book basis and tax basis undistributed income is due to the timing difference, and other temporary differences, in recognizing dividends paid and the tax treatment of market discount amortization and the deduction of distributions payable.

10. Credit Facility

Since August 30, 2017, Bank of New York Mellon and the Aquila Group of Funds (which is comprised of nine funds) have been parties to a \$40 million credit agreement, which currently terminates on August 25, 2021 (per the August 26, 2020 amendment). In accordance with the Aquila Group of Funds Guidelines for Allocation of Committed Line of Credit, each fund is responsible for payment of its proportionate share of

- a) a 0.17% per annum commitment fee; and,
- b) interest on amounts borrowed for temporary or emergency purposes by the fund (at the applicable rate selected by the Aquila Group of Funds at the time of the borrowing of either (i) the one-month Eurodollar Rate or (ii) a rate equal to the greater of (a) the Prime Rate in effect on such day, (b) the Federal Funds Effective Rate in effect on such day, or (c) the Overnight Eurodollar Rate in effect on such day).

There were no borrowings under the credit agreement during the year ended March 31, 2021.

11. Recent Events

The respiratory illness COVID-19 caused by a novel coronavirus has resulted in a global pandemic and major disruption to economies and markets around the world, including the United States. Global financial markets have experienced extreme volatility and severe losses, and trading in many instruments has been disrupted. Liquidity for many instruments has been greatly reduced for periods of time. Some interest rates are very low or negative. Some sectors of the economy and individual issuers have experienced particularly large losses. These circumstances may continue for an extended period of time, and affect adversely the value and/or liquidity of the Fund's investments. The ultimate economic fallout from the pandemic, and the long-term impact on economies, markets, industries and individual issuers, are not known. Governments and central banks, including the Federal Reserve in the U.S., have taken extraordinary and unprecedented actions to support national economies and the financial markets. These actions have resulted in significant expansion of public debt, including in the U.S. The impact of these measures, and whether they will be effective to mitigate the economic and market disruption, may not be known for some time. The consequences of high public debt, including its future impact on the economy and securities markets, likewise may not be known for some time.

See accompanying notes to financial statements.

Additional Information:

Statement Regarding Liquidity Risk Management Program

Rule 22e-4 under the Investment Company Act of 1940, as amended, requires open-end management investment companies to adopt and implement written liquidity risk management programs that are reasonably designed to assess and manage liquidity risk. Liquidity risk is defined in the rule as the risk that a fund could not meet requests to redeem shares issued by the fund without significant dilution of remaining investors' interests in the fund. In accordance with Rule 22e-4, Aquila Municipal Trust ("AMT") has adopted a Liquidity Risk Management ("LRM") program (the "program"). AMT's Board of Trustees (the "Board") has designated an LRM Committee consisting of employees of Aquila Investment Management LLC ("AIM") as the administrator of the program (the "Committee").

The Board met on June 12, 2020 to review the program. At the meeting, the Committee provided the Board with a report that addressed the operation of the program and assessed its adequacy and effectiveness of implementation, and any material changes to the program (the "Report"). The Report covered the period from December 1, 2018 through May 29, 2020 (the "Reporting Period").

During the Reporting Period, the Committee reviewed whether each Fund's strategy is appropriate for an open-end fund structure taking into account less liquid and illiquid assets.

The Committee reviewed each Fund's short-term and long-term cash flow projections during both normal and reasonably foreseeable stressed conditions. In classifying and reviewing each Fund's investments, the Committee considered whether trading varying portions of a position in a particular portfolio investment or asset class in sizes the Fund would reasonably anticipate trading, would be reasonably expected to significantly affect liquidity. The Committee considered the following information when determining the sizes in which each Fund would reasonably anticipate trading: historical net redemption activity, the Fund's concentration in an issuer, shareholder concentration, Fund performance, Fund size, and distribution channels.

The Committee considered each Fund's holdings of cash and cash equivalents, as well as borrowing arrangements. The Committee considered the terms of the credit facility applicable to the Funds, the financial health of the institution providing the facility and the fact that the credit facility is shared among multiple Funds. The Committee also considered other types of borrowing available to the Funds, such as the ability to use interfund lending arrangements.

The Committee also performed an analysis to determine whether a Fund is required to maintain a Highly Liquid Investment Minimum ("HLIM"), and determined that the requirement to maintain an HLIM was inapplicable to the Funds because each Fund primarily holds highly liquid investments.

There were no material changes to the program during the Reporting Period. The Report provided to the Board stated that the Committee concluded that the program is reasonably designed and operated effectively throughout the Review Period.

Your Fund's Expenses (unaudited)

As a Fund shareholder, you may incur two types of costs: (1) transaction costs, including front-end sales charges with respect to Class A shares or contingent deferred sales charges ("CDSC") with respect to Class C shares; and (2) ongoing costs including management fees; distribution "12b-1" and/or service fees; and other Fund expenses. The table below is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The table below assumes a \$1,000 investment held for the six months indicated.

Actual Fund Expenses

The table provides information about actual account values and actual expenses. You may use the information provided in this table, together with the amount you invested, to estimate the expenses that you paid over the period. To estimate the expenses that you paid on your account, divide your ending account value by \$1,000 (for example, an \$8,600 ending account value divided by \$1,000 = 8.6), then multiply the result by the number under the heading "Expenses Paid During the Period".

Hypothetical Example for Comparison with Other Funds

Under the heading, "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other funds. To do so, compare this 5% hypothetical example for the class of shares you hold with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table are meant to highlight ongoing costs and do not reflect any transactional costs. Therefore, information under the heading "Hypothetical" is useful comparing ongoing costs only, and will not help you compare total costs of owning different funds. In addition, if transactional costs were included, your total costs would have been higher.

	Actual			Hypothetical		
	(actual return after expenses)			(5% annual return before expenses)		
Share Class	Beginning Account Value 10/1/20	Ending ⁽¹⁾ Account Value 3/31/21	Expenses ⁽²⁾ Paid During Period 10/1/20 – 3/31/21	Ending Account Value 3/31/21	Expenses ⁽²⁾ Paid During Period 10/1/20 – 3/31/21	Net Annualized Expense Ratio
A	\$1,000	\$996.90	\$3.39	\$1,021.54	\$3.43	0.68%
C	\$1,000	\$993.10	\$8.10	\$1,016.80	\$8.20	1.63%
Y	\$1,000	\$997.20	\$3.14	\$1,021.79	\$3.18	0.63%

- (1) Assumes reinvestment of all dividends and capital gain distributions, if any, at net asset value and does not reflect the deduction of the applicable sales charges with respect to Class A or the applicable CDSC with respect to Class C shares. Total return is not annualized and as such, it may not be representative of the total return for the year.
- (2) Expenses are equal to the annualized expense ratio for the six-month period as indicated above - in the far right column - multiplied by the simple average account value over the period indicated, and then multiplied by 182/365 to reflect the one-half year period.

Information Available (unaudited)

Annual and Semi-Annual Reports and Complete Portfolio Holding Schedules

Your Fund's Annual and Semi-Annual Reports are filed with the SEC twice a year. Each Report contains a complete Schedule of Portfolio Holdings, along with full financial statements and other important financial statement disclosures. Additionally, your Fund files a complete Schedule of Portfolio Holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its Reports on Form N-PORT. Your Fund's Annual and Semi-Annual Reports and N-PORT reports are available free of charge on the SEC website at www.sec.gov. You may also review or, for a fee, copy the forms at the SEC's Public Reference Room in Washington, D.C. or by calling 1-800-SEC-0330.

In addition, your Fund's Annual and Semi-Annual Reports and complete Portfolio Holdings Schedules for each fiscal quarter end are also available, free of charge, on your Fund's website, www.aquilafunds.com (under the prospectuses & reports tab) or by calling us at 1-800-437-1000.

Portfolio Holdings Reports

In accordance with your Fund's Portfolio Holdings Disclosure Policy, the Manager also prepares a Portfolio Holdings Report as of each quarter end, which is typically posted to your Fund's individual page at www.aquilafunds.com by the 15th day after the end of each calendar quarter. Such information will remain accessible until the next Portfolio Holdings Report is made publicly available by being posted to www.aquilafunds.com. The quarterly Portfolio Holdings Report may be accessed, free of charge, by visiting www.aquilafunds.com or calling us at 1-800-437-1000.

Proxy Voting Record (unaudited)

During the 12 month period ended June 30, 2020, there were no proxies related to any portfolio instruments held by the Fund. As such, the Fund did not vote any proxies. Applicable regulations require us to inform you that the Fund's proxy voting information is available on the SEC website at www.sec.gov.

Federal Tax Status of Distributions (unaudited)

This information is presented in order to comply with a requirement of the Internal Revenue Code. **No action on the part of shareholders is required.**

For the fiscal year ended March 31, 2021, \$4,680,747 of dividends paid by Aquila Tax-Free Fund of Colorado, constituting 99.9% of total dividends paid, were exempt-interest dividends; and the balance was ordinary income.

Prior to February 15, 2022, shareholders will be mailed the appropriate tax form(s) which will contain information on the status of distributions paid for the 2021 calendar year.
